JUNE 2022

Taste of Summer

June is the start of summer, the brightest and best season for UK produce. So get those kitchen doors wide open.

Summer berries are starting to make an appearance, but it's British strawberries that take centre stage. Soft, sweet and juicy, they are at their best this month. We've just secured our first delivery of Annabel's Deliciously British Yorkshire-grown strawberries and we'll be collecting them daily all summer. We've contracted the price, so please get in touch for details.

Salad production is in full swing, so take advantage of local-grown produce for fresh crisp lettuce on the plate such as new season UK-grown Iceberg lettuce and Cos. We are now working with a fantastic Lancashire tomato grower for cherry vine, large vine and mixed heritage tomatoes – they are all stunning.

Lancashire-grown cauliflower is great value. Available in trays of eight, this humble yet popular veg will add variety to your menu. Roasted, riced, spiced or battered, use it as a side dish or to make warming alads, special mains or tapas-style starters. Yorkshire-grown asparagus is still being collected daily too. Perfect quality and absolutely beautiful, so serve it while you can.

What's in season this June?
